

1863

My dear Sam Chander,

Apr. 3rd

I certainly think your claims to promotion very strong indeed; after 13 years service in the Education line, always giving great satisfaction to your superiors, it is natural that you should look for greater advancement than you have yet obtained, and I hope the Council of Education will soon recognize the justice of your expectations. Had I remained longer at the College, I should certainly have taken the earliest favourable opportunity of bringing your merits to the notice

Every one connected with the College, will I am sure be ready to acknowledge your regularity of attendance, your unwearied zeal, & your efficiency as a Teacher. I hope that your merits will be speedily recorded as they ought to be.

4th April 1863.

Yours
L. L. Richards
