To

The Senior Professor of Botany
Presidency College, Cal.

Sir,

Prof. G. P. Majumdar M.Sc.
wished that Nirmal Ch. Law
(4th. yr. B.Sc. student) be given
a few cc. of stains etc. for Practical
work at home. So Law is come
with a few Phials to day. Can
I give him stains as wished by the
above Professor?

I have the honour to be,
Sir,
your most obedient servant
Upendranath Bhaduri
Assistant, Botanical Laboratory

Principal.

Please see Upendra Babu's letter attached herewith. It has been brought to my notice that Prof. Majumdar has been giving away materials from the Botanical laboratory to students and to other colleges through students without my knowledge. I am afraid the practice is detrimental to economy of our stock and to discipline, for, if it is continued, then every body will be emboldened to take away college material for private use.

The other day he asked the new demonstrator to purchase for him from a hawker some brass stationery articles out of the contingent grant of the department without referring it to me. It was ascertained from the Head Assistant that purchase of such stationery is against the rules.

I leave it entirely to you to take such notice of the above statement as you think best.
