

Acknowledgement

*First and foremost, praises and thanks to the God, the Almighty, for His showers of blessings throughout my research work to complete the research successfully and introducing me to the most wonderful person I am going to talk about next. I would like to use this opportunity to express my deep and sincere gratitude to my research supervisor, **Prof. Barun Raychaudhuri** for giving me the opportunity to do research and providing invaluable guidance throughout this research, though, it would not be enough if I write a book to express his contribution in my life during the tough times of my research days. His dynamism, vision, sincerity and motivation have deeply inspired me. He has taught me the methodology to carry out the research and to present the research works as clearly as possible. It was a great privilege and honor to work and study under his guidance. I am extremely grateful for what he has offered me.*

I'd want to communicate my heartfelt appreciation to all of the teachers in the Physics Department of Presidency University for teaching us numerous advanced themes in theoretical physics, research methodology, and research ethics. I am grateful to Presidency University, Kolkata for providing the required facilities such as computers, internet connection and a library. I am also thankful to the staff of Physics Department for their cooperation in a variety of ways. I'd like to thank the administration and all employee of Presidency University for their help in a variety of ways.

A huge thanks goes to Space applications Centre, ISRO for their great support with instruments and infrastructure received through my supervisor. I would like to acknowledge the data and images of JPL-NASA on various space and airborne missions. I convey my thanks and gratitude to UGC for providing uninterrupted financial support.

*I am extremely grateful to my Late father, **Srikrishna Roy** for his love, support and continued blessing from the promised land and my loving mother, **Nitambini Roy** for her love, prayers, caring and sacrifices for educating and preparing me for my future. I am very much thankful to my wife, **Nibedita Roy Mallick** for her love, understanding, prayers and continuing support to complete this research work. Lastly, I want to express my love to my brother, **Diptanu Roy** for numerous scientific discussions and his life saving skills on computer programming throughout the research.*
