**MEMORANDUM.**

No. 213G.A.C.

TO ALL OFFICERS IN THIS PROVINCE.

*Calcutta, the 8th September, 1948.*

Government have from time to time received complaint that Government servants have been subjected to interference in the discharge of their official duties by political workers. Government recognise that such interference tends to hamper the efficiency of the administration as a whole. The matter has been carefully considered by Government and the necessity for affording protection to Government servants against any possible interference with their official duties or threats from political workers has been recognised in principle. Government have taken up the matter with the Congress authorities in the Province with a view to discourage such interference in the future. The highest authorities of the Indian National Congress have also stressed the same principle. Government wish to make it clear to all their officers that they expect the officers to do their

duties conscientiously and without fear or favour whatever may be the nature of interference from outside.
